Discover the Soul of Costa Rica

UrriTrek was founded in 2019 by Costa Rican entrepreneurs. Our passion is hiking and long-term treks in Costa Rica.

We are more than a tourism company, we live hiking and we want each of our clients to receive not only a tour, but a life experience. We are also pioneers in the route of El Camino de Costa Rica, a route that crosses the continent from Sea to Sea.

Urri means giant anteater *Myrmecophaga* (already extinct in the country). It is a tribute of faith and transformation, since we believe that these types of projects will help sustainable tourism and the conservation of new, less-visited areas of the country.

Notes

It is the obligation of the participants to be in good health to carry out the 265 km of walking, in case they are not, they must abide by the guide's instructions according to their criteria. Including paying costs such as extra transportation, change of accommodation, and other necessary adjustments.

We recommend training hills as 70% of the hike is up and down.
